MSRP	\$24,012.00
Price	\$19,995.00

Features

- Front Bath

- Front Kitchen

- Rear Bedroom

Description

Due to supply shortages and limited manufacturing capacity RV manufacturers have prioritized building retail sold units first. Because of the high volume of retail orders there are very few units, if any, being built for dealer stock. Most of our stock units are being reserved as display models. We do not like doing this but must do it so that all customers have something to look at. Lead times are typically 3-4 months, depending on the brand.

To order we only require a \$500 deposit. Ordering will allow you add or change certain options to your liking and will also Price Lock your unit, protecting you against inevitable further price increases.

Please note due to supply shortages component substitutions may be made by the manufacturer. The manufacturers always try to use components of similar design and quality but sometimes variations cannot be avoided. Some common substitutions this year have been toilet model/brand, appliance brands, mattress type/brand, and color of vents and other plastic components. We are unable to make special requests or guarantees related to substitutions and cannot offer any credit or discount because of a substitution.

The Rockwood Geo Pro 15TB is our smallest walkable travel trailer in our lineup. We like to call it the Swiss Army Knife of

RVs. With two twin beds that make it into a king bed, full bathroom, TV, awning and all the great things this camper comes with, you just can't go wrong. Coming in under 2,600 lbs, most tow vehicles can handle this small camper without even breaking a sweat. If you need a small camper with a king bed this is your winning ticket.

- CONVECTION MICROWAVE
- WATER PURIFIER
- MAXXAIR VENT FAN & COVER
- PACKAGE A:
- Roller Shades
- 12 Volt TV w/ DVD Player
- AM/FM Stereo w/ Bluetooth and USB
