URL: https://currenpowersports.com/2024-cfmoto-450ss-motorcycle-Cigq.html		

MSRP	\$5,699.00
Price	\$5,699.00

Description

Those winglets create 1.6 times more downforce. Youll need them to keep you grounded when you find the limits of this all-new engine. The 449cc parallel twin features a 270 crankshaft angle, giving it a torque curve, power output, and sound profile more like that of a V-twin. These engine characteristics also contribute to better rear wheel traction under acceleration. If the engine is one reason to love this bike, just wait until you hear about the Brembo brakes, multi-link rear suspension, and reverse shifting option. Who is this bike made for? Anyone and everyone born in the tucked position.

2-YEAR FACTORY WARRANTY
